EVERYTHING IN ONE APP

From the first scan to the last rupee

One login for the counter, the kitchen, waiters and the owner. Works on any phone, tablet or laptop, and installs like an app with its own icon.

📱 Menu & ordering

- ✓ Your own menu website with your logo, photos and sections
- ✓ Options with prices: sizes, toppings, Egg / Eggless
- ✓ **Table and counter QR** ordering, dine-in or takeaway
- ✓ Safe QR: table codes only work in your shop, posters are view-only
- ✓ Live order tracking and token number on the customer's phone
- ✓ **Kiosk mode**: a self-order tablet at the counter NEW
- ✓ 📺 **TV menu board** with live prices and offers NEW

🛎️ Counter, kitchen & waiters

- ✓ Live order board with sound alerts on every staff device
- ✓ **+ New order** for walk-in, phone and waiter orders
- ✓ **KOT** kitchen tickets on accept, with reprint
- ✓ 🙋 **Guests call staff** from the table: waiter, water, bill, clean, help NEW
- ✓ **Kitchen screen** and **token TV** for customers NEW
- ✓ **KOT + BOT**: kitchen and bar tickets NEW

🧾 Billing & GST

- ✓ One bill per table or token, **merge** and **move table**
- ✓ **Split bill** by items or equally
- ✓ Bill numbers for every order (HG/26-27/0001), by financial year
- ✓ **GST tax invoice**: GST rate and HSN per item, GSTIN, IGST
- ✓ **Bills on WhatsApp, SMS or email** with your Google review link NEW
- ✓ **Liquor** billed without GST NEW

💛 Bring customers back

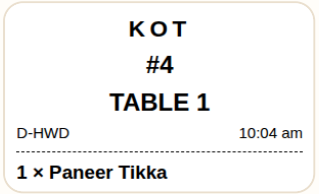
- ✓ **Udhaar book** with reminders by WhatsApp or SMS
- ✓ **WhatsApp campaigns** to regulars, lapsed or new customers NEW
- ✓ Coupons and happy hours; a welcome offer for new customers
- ✓ Feedback after every visit, sends happy guests to Google reviews
- ✓ Bluetooth / USB printers, 58 or 80 mm, logo and review QR on the bill

📦 Stock

- ✓ Every order subtracts stock automatically
- ✓ Low-stock alerts; items go sold out at zero and come back on restock
- ✓ **Raw materials**: milk, flour, packaging, parts, with alerts
- ✓ **Stock sheet**: download in Excel with a **product ID** for every item, count, upload in one go NEW
- ✓ Purchase orders and supplier bills

📊 Money & accounts

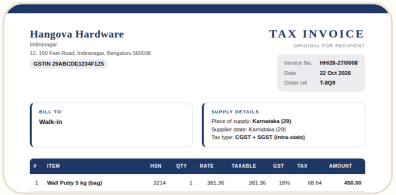
- ✓ Today's sales, collections and open bills from anywhere
- ✓ Day close with cash count; late-night shops counted to the right day
- ✓ Expenses, purchases and profit & loss
- ✓ GST reports, CA login, Tally export, ITR pack
- ✓ **Weekly report emailed** to the owner every Monday NEW
- ✓ Staff logins with roles you add and remove yourself



KOT for the kitchen

Bill on a Bluetooth printer

Thermal tax invoice



Colour A4 tax invoice

HOW IT WORKS

Scan, order, serve, bill. Under a minute at the counter.

Here is a guest's visit, start to finish. Cafés can skip the kitchen steps and finish counter orders in one tap.

1

Scan & order

The guest scans the QR on the table, picks dine-in or takeaway, chooses options and orders. They get a token number and live status.

2

Kitchen gets it

A sound and a card on every staff phone. Accept prints a KOT. Waiters add orders with + New order at the table.

3

Guest needs something?

They tap 🙋 Call staff: waiter, water, bill. Staff see the table number at once and tap On my way.

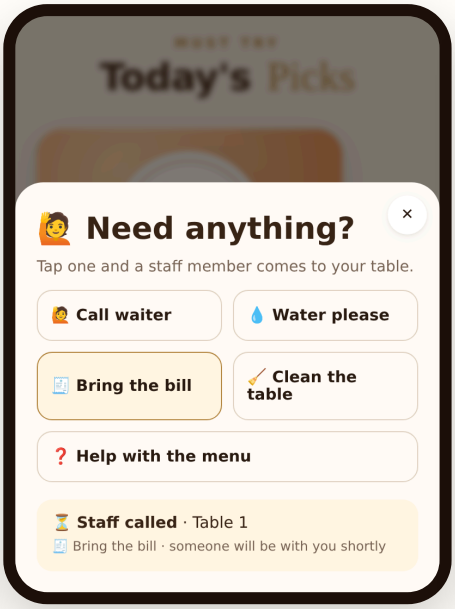
4

Bill & pay

All rounds join one table bill. Split it, print it, take cash or UPI, tap Paid. Stock and reports update.

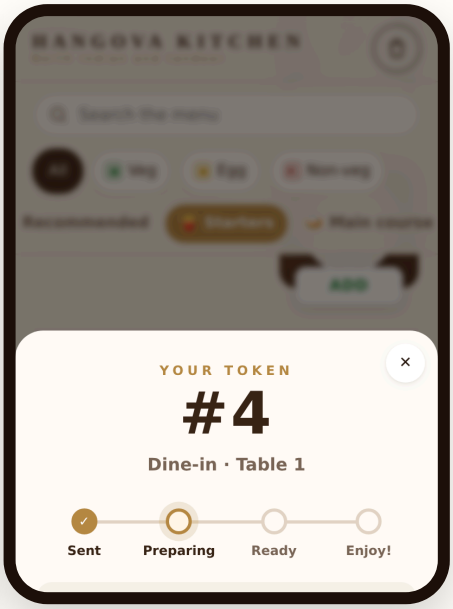
1 · Your menu

Opens from the table QR. Your logo, photos and prices.



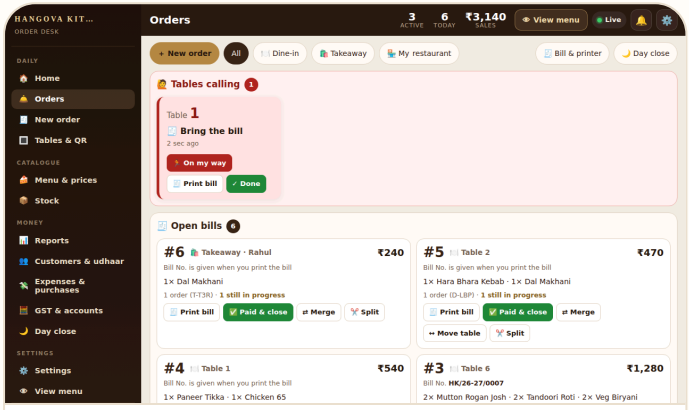
3 · Call staff

One tap for waiter, water or the bill. Shows when staff are on the way.



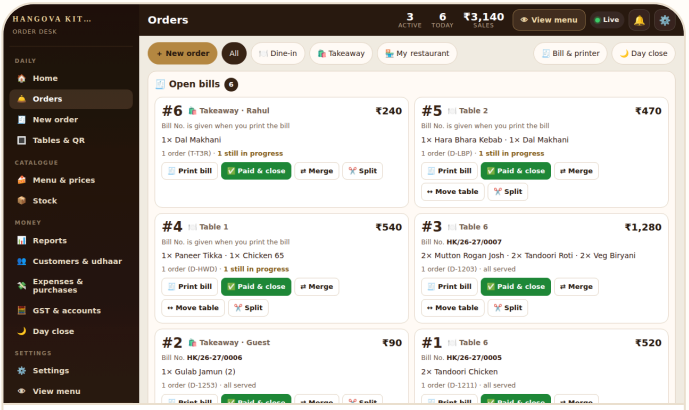
Live tracking

Token number and status: sent, preparing, ready.



🙋 Tables calling, on the staff page

Rings until someone taps "On my way". "Bring the bill" prints that table's bill in one tap. Every waiter's phone gets it.



Open bills and the order board

Tokens, one bill per table, KOT, move table and split bill. Accept, ready and served in big buttons.

SECTION 1 · CAFÉ

Menu, QR ordering, billing & reports for your café, in one app

Customers scan the QR on their table and order from their phone. Your counter hears every order, prints the bill in one tap, and you see today's sales from anywhere.

0% commission | Works on any phone | No POS machine needed | Live in 2 to 3 days

EVERYTHING A CAFÉ NEEDS

Your own menu website
Photos, prices, veg/egg labels, toppings and options, offer pop-ups.

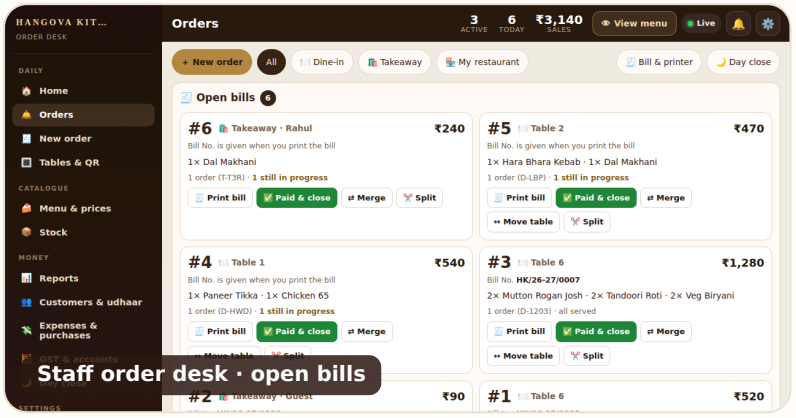
Safe QR ordering
Table QRs only work inside the café. Poster QRs are view-only.

Counter orders too
Walk-in orders with + New order, straight onto the bill.

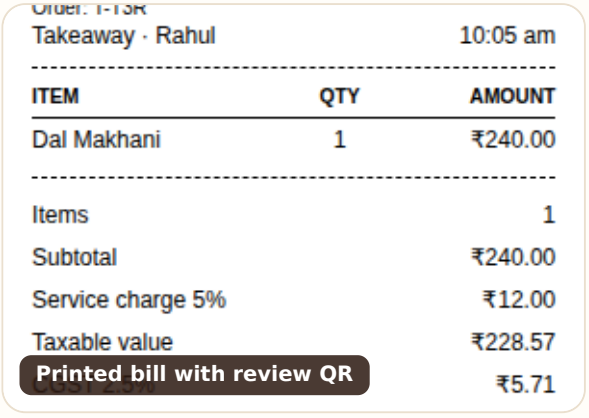
Bills & tokens
Token numbers, one bill per table, financial-year bill numbers.

Stock that counts itself
Every order subtracts stock. Low-stock alerts, sold out at zero.

Reports for the owner
Sales, best sellers, busy hours, CSV export, review QR on bills.



Staff order desk · open bills



Printed bill with review QR

BEST FIT

Growth — ₹9,999 / year

or ₹999/month · plans from ₹4,999 a year · add-ons from ₹2,000

- ✓ Everything in Starter
- ✓ Customers order from the table QR
- ✓ Pay from phone by UPI
- ✓ Customers & loyalty points
- ✓ WhatsApp offers (with consent)
- ✓ Coupons, combos, happy hours

What's in your café plan

- ✓ Bluetooth / USB bill printing
- ✓ Tokens & one bill per table
- ✓ Bill numbers for every order (HG/26-27/0001)
- ✓ Stock and raw material tracking
- ✓ Sales reports, best sellers, CSV
- ✓ Google review QR on every bill
- ✓ 🙋 Call staff from the table QR

🖨️ Suggested hardware: Bluetooth thermal printer 58 mm **₹2,799** · QR table stand (acrylic) **₹199** · Paper rolls, box of 50 **₹1,299**

SECTION 2 · RESTAURANT

Tables, KOT & billing for your restaurant, without a costly POS

Guests order from the table QR or your waiters take the order on their phone. The kitchen gets a KOT, the counter gets one bill per table, and you see every rupee live.

0% commission | KOT printing | Split bill | Service charge | Waiter phones

BUILT FOR FULL-SERVICE DINING

KOT to the kitchen
Accepting an order prints a kitchen ticket with table, token and items. No prices.

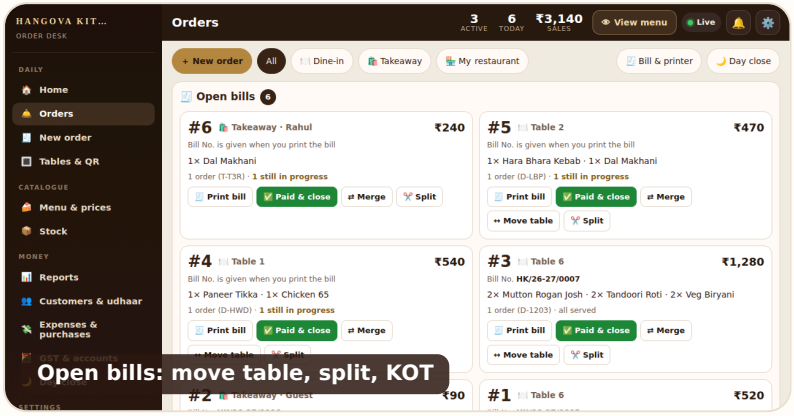
Waiter ordering
Each waiter logs in on their phone and adds orders at the table.

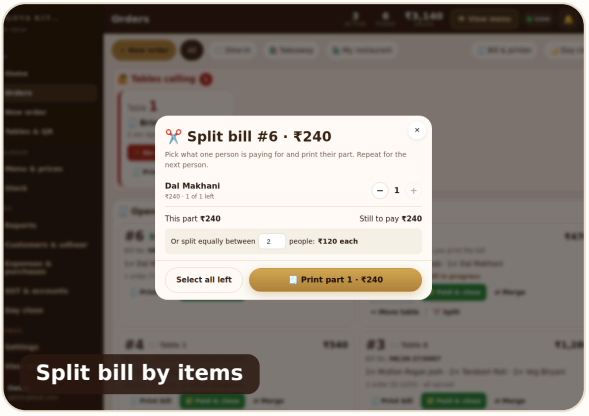
One bill per table
Every round joins the same table bill. Merge or move tables in one tap.

Split the bill
Pick what each person pays for and print their part, or split equally.

Service charge & GST
Service charge 5 to 12.5%, GST included or extra, printed clearly.

Guests call staff
From the table QR: waiter, water, bring the bill. Staff see the table number with a sound.





BEST FIT

Pro — ₹17,999 / year

or ₹1,799/month · plans from ₹4,999 a year · add-ons from ₹2,000

- ✓ Everything in Growth
- ✓ KOT, kitchen screen, token TV
- ✓ Guests call staff from the table
- ✓ Move, merge & split bills
- ✓ Stock, raw materials, purchases
- ✓ Expenses, P&L, GST reports

What's in your restaurant plan

- ✓ KOT printing on accept, KOT reprint
- ✓ Move table & split bill
- ✓ Service charge on the bill
- ✓ 🙋 Call staff from the table QR
- ✓ Bill numbers for every order
- ✓ Stock and raw material tracking
- ✓ Reports, best sellers, CSV

SECTION 3 · RESTO-BAR & PUB

Food to the kitchen, drinks to the bar, one bill per table

Waiters order from their phones or guests scan the table QR. Food prints a KOT, drinks print a BOT, and liquor is billed apart from food GST. Ten waiters on a busy night, still one clean bill per table.

KOT + BOT | Liquor without GST | Pegs & pitchers | Waiter phones | TV menu board

BUILT FOR RESTO-BARS, PUBS AND BREWERIES

KOT and BOT by themselves

Food sections go to the kitchen, beer, spirits and cocktails to the bar. Set up from day one.

Liquor billed right

Liquor has no GST and shows on its own line. Add your state's liquor tax if you need one.

Pegs, pints, pitchers

30 ml, 60 ml, bottle, pint or pitcher, each with its own price, in one tap.

10 waiters, one bill

Every waiter on their own phone. Orders for the same table always join one bill.

Happy hours & buckets

Offers that switch on by the clock, on the menu, the bill and the TV.

TV menu board

Your menu, offers and ready numbers on a TV at the bar. Legal-age line on the QR menu.

TV menu board at the bar

Kitchen KOT and Bar BOT from one order

SECTION 4 · BAKERY & DESSERTS

Show off your cakes and bake, take orders, print bills

A photo menu customers love, with egg/eggless and flavour options. Counter orders in seconds, stock that counts itself and goes sold out when a tray is empty.

0% commission | Egg / Eggless options | Photo menu | Live in 2 to 3 days

MADE FOR BAKERIES AND DESSERT SHOPS

Photo menu
Every cake and pastry with photos, prices and your own sections.

Egg / Eggless & flavours
Options with their own prices, e.g. Biscoff, Nutella, Eggless.

Quick counter billing
+ New order for walk-ins, token number, bill in one tap.

Stock by the piece
Each sale subtracts stock; sold out shows automatically at zero.

Raw materials
Track flour, butter, cream and boxes with low-stock alerts.

More Google reviews
Review QR on every bill opens the review box directly.

SECTION 7 · RETAIL & HARDWARE SHOP

Simple billing & stock for your shop, on the phone you already have

Bill at the right price list (retail, wholesale or contractor), scan barcodes, print a proper GST tax invoice, keep the udhaar book and stock in order, all on the phone you already have.

No yearly AMC | GST rate per product | Retail · wholesale · contractor prices | Barcode billing | Udhaar book

FOR HARDWARE, ELECTRICAL, PAINT AND GENERAL STORES

GST tax invoice

GST rate and HSN per product, customer GSTIN, CGST/SGST or IGST. A4 or thermal.

Three price lists

Retail, wholesale and contractor rates. Update rates in one go when the market moves.

Barcode & units

Scan to bill. Sell by kg, metre, litre or box. Price check at the counter.

Udhaar book

Who owes what, with payment reminders by WhatsApp or SMS.

Stock sheet & purchases

Every sale subtracts stock. Download stock in Excel with product IDs, count, upload. Purchase orders and supplier bills.

Product catalogue

Customers browse your products with photos and details, and ask on WhatsApp.

COMPARE WITH WHAT'S IN THE MARKET

Big-POS features at a QR-menu price

Most cafés and restaurants pay for two or three tools: billing software, a QR menu app, and commission to food apps. Here is how Hangova compares with the popular choices in India.

	Hangova Café Pro shown	**Petpooja** restaurant POS	**GoFrugal** restaurant POS	**Rista (DotPe)** restaurant POS	**QR-menu apps** menu & ordering	**Zomato / Swiggy** food apps
Price for 1 café, 1st year	**₹9,999**	**≈ ₹10k – 15k + GST, add-ons**	**≈ ₹9k – 15k + GST**	**≈ ₹15k – 22k on quote**	**≈ ₹3k – 36k**	**18 – 30% of each order**

First-year cost for one café (approx.)

Solid = low end, striped = high end. POS + terminal includes ₹15k – 30k hardware. Full width = ₹70,000.

The commission trap

A café doing **₹1,00,000 a month** through an app at **20% commission** gives away **₹20,000 every month**, about **₹2.4 lakh a year**.

With Hangova, orders in your café cost **₹0 commission**. One month of that commission pays for **two years** of Hangova Café Pro.

Competitor prices are approximate, for one outlet, from public listings and comparison sites (Techjockey, SoftwareSuggest, Servyn, vendor sites and others) checked in October 2026. Most POS vendors quote on request; add-ons, hardware, GST and renewal increases vary. Food-app commission ranges are as reported in the press in 2026. Feature marks show what is typically included; check with each vendor. Names are trademarks of their owners and are used only for comparison.

QUESTIONS OWNERS ASK

Straight answers, before you start

Still unsure? Ask for a free demo at your place. It takes 15 minutes.

Do I need to buy a POS machine?
No. Use the phone, tablet or laptop you already have. Add a ₹2,799 Bluetooth printer if you want printed bills.

What if the internet goes down?
The staff page shows it at once and reconnects by itself when the internet is back. Keep mobile data on the counter phone as a backup.

Can customers order from home with the QR?
No. Table QR codes only work inside your shop and can be changed any time. Poster QRs only show the menu.

Do you take a cut of my sales?
Never. No commission on any order. You pay only the yearly or monthly plan.

Who enters my menu?
We do, with your photos, prices and options, during setup. After that you change prices and items yourself in seconds.

Does it work for a pub with 10 waiters?
Yes. Every waiter orders on their own phone and orders for the same table always join one bill. Food prints a KOT, drinks a BOT.

Can I use it in two outlets?
Yes. Each outlet gets its own menu link, QR codes and reports. An extra outlet is 50% of the plan.

Can I bill with GST?
Yes. Bills show CGST/SGST. Shops and B2B sales get a proper tax invoice with HSN, customer GSTIN and IGST.

I only need billing, not a customer menu.
Fine. Switch the customer menu off and Hangova is a fast billing, stock and accounts app. The trial is free for 15 days.

Is my data safe?
Orders and sales are stored on Google Firebase, encrypted. Only your staff logins can see them. Your customer data is yours.

Can I update stock from Excel?
Yes. Download the stock sheet (every item has its own product ID), type today's counts in Excel or Google Sheets and upload it. You see every change before it's saved.

Is there an app?
Yes. Open your staff page and tap Install: it gets its own icon on Android, iPhone and computers. Help: hangovacare@gmail.com.

0% commission
Every order, every rupee stays with you.

Live in 2 to 3 days
Menu, QR codes, printer and training done by us.

Any device
Phone, tablet or laptop. Installs like an app, keeps the screen on.

Personal support
A real person who knows your setup. No ticket queues.

Day 1

Demo at your place. We collect your menu, photos, logo and bill details.

Day 2

Your menu goes live. QR codes printed for every table, printer connected.

Day 3

Staff trained in 30 minutes. You take real orders, free for 15 days.

☕ **Built inside a working café.** Hangova runs every day at a busy dessert café in Bengaluru, so every feature here was tested on a real, busy counter before it reached you.
